### Fond Farewell

Eight and half years ago we the staff and residents of Wedgwood welcome Deb into our facility. Deb was hired for the acting roll of head administrator. What an undertaking this job entailed.

I can remember one of Debs first challenges was to convert former employees to familiarize themselves in using a computer. This was a big big undertaking. Back then mostly everything had been done the old school way by using pen, paper, and calculator relying on their own brain power. Which as you know fades fast if you get what I mean LOL which today is called Memory relapse.

Now all we have to do is press a button on the computer and the memory is now saved. We have now come a long way relying on technology.

Many issues were thrown Debs way in solving different disputes between residents and staff. Deb prevailed the job was done. The question asked will she last. The answer to that is yes. Eight and half years later she has done an extraordinary job.

Deb has tried to make Wedgwood a home for all the residents and staff members included. One of Debs pet peeve was bullying and gossiping. Deb tried to nip that in the bud whenever possible. When doing group tours for Wedgwood, the end results were

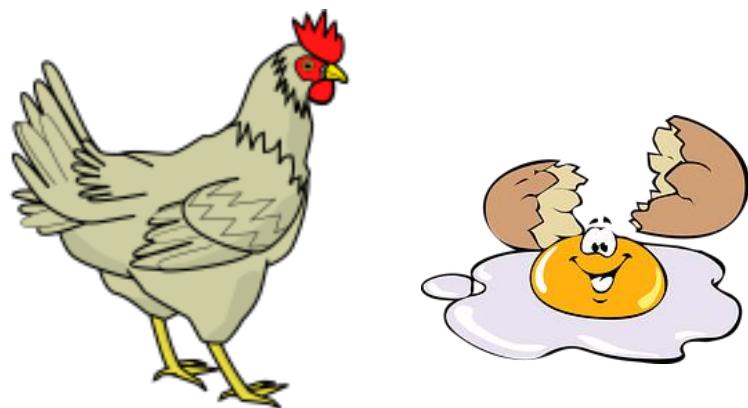

stated on many occasion, yes, I could live here. This feels like a home please put us on the list. That is why our list is so extensive.

Deb is a problem solver. Many times you will see Deb sitting in the office trying to solve issues, fixing resident's cell phones, landline or talking directly to the phone company the residents could not hear or understand what was being said. Let us not forget how many times the residents would bring their computers or tablets down for they had pushed the wrong button and now nothing works.

Deb would sit back and chuckle when they would come. What Now LOL. Deb stated many a time the door was always open. In which it was.

Working countless hours for Wedgwood and Sherwood, Deb is now venturing out on a new journey. Good luck with all your endeavors

Deb you will be sadly missed
